

D. Dippel Honored On 88th Birthday

On Saturday evening, September 10, a number of Christ's Co-Workers Sunday school class of the Evangelical church and his three sons and families gathered at the home of Mr. and Mrs. Mose Dippel to celebrate a very rare occasion, the 88th birthday of Mr. Dan Dippel. A very enjoyable evening was spent in the singing of hymns and listening to short addresses by various speakers.

During the evening a letter, addressed to Mr. Dippel setting forth his faithful service in the church and Sunday school, was read by his grandson, Merle Dippel, and a beautiful bouquet of gladioli was presented to the honored guest by two granddaughters, Donna and Carol.

After the ceremonies of candle lighting, etc., on the beautiful birthday cake was dispensed with, the hostess served delicious cake and ice cream.

The dispersing crowd wished Mr. Dippel many more happy days.

Walther Leaguers Bowl at Olds

Through the kind arrangement and invitation of Mr. Henry Scheuer, member of Redeemer Lutheran Church and new owner-operator of the Olds Bowling Alleys, some 50 Walther Leaguers and friends motored to Olds on Monday, Sept. 12, for two hours of bowling. Although many of the Leaguers present and never bowled before, quite a number of good scores were made. From the chatter and the noise made by the group it was very evident that one and all had a most enjoyable time. Many, however, complained of sore arm and leg muscles due to the unaccustomed exercise. It is questionable if some of those bowling did much harvest work the next day.

Mr. N. Dyck has been endeavoring to raise several varieties of apples on his place in East Didsbury and with almost 100 fruit trees he is having considerable success. However, last week his hopes for completing experiments on a new variety were set back at least a year when some thoughtless thief raided the orchard and stripped 45 of the large apples from one of the trees.

SUCH WAS LIFE

Pioneer life was in no way confined to men only. Women, too, were many times called upon to play their part in overcoming privations and hardships peculiar to early settlement.

In the spring of 1899 slush and rain were carried forward to April and May. Newcomers found it difficult to locate shelter that turned water. In one instance a sod-roofed shack twelve by sixteen feet, with a sod floor was the best to be had for a family with five children. It usually rained for two days inside the shack after it was covered by rain on the outside. Dry spots were at a premium. All the dishes and umbrellas available were employed to catch and direct the persistent trickling that kept the members of the family dodging from place to place, trying to keep dry. Then too, the wood was so wet it would not burn satisfactorily.

It was under such conditions that one of the children took sick. There was no telephone and no doctor to phone to. The best the mother could do was to walk nearly a mile through long, wet grass and brush to a neighbor to find some remedy (maybe). The best to be had was given and as she returned soon found herself bewildered among the brush. There was no trail to follow; her sight none too clear, she mistook a brush cluster for the shack as it was getting dark.

The excessive rain made every low place soft with mud and partly filled with water. She paddled through several of these places and became weak, and finally exhausted, and sank to the ground. When at the point of giving up, she thought of her children, and making a super human effort she managed to find the shack.

We can imagine what the feelings of both mother and children were upon her arrival.

We talk of our heroes—the country is full of them.

PIONEER CITIZEN

FATHER OF FRED BATEMAN DIES IN HOLY CROSS HOSPITAL

Wellington Bateman, 80, of Okotoks, died in the Holy Cross hospital, Calgary, on Wednesday, September 7. Mr. Bateman was born in Ireland and had lived in Alberta for 25 years.

Surviving is a son, Fred, of Didsbury.

Rev. J.V. Howey conducted services at Okotoks United Church on Friday at 2 p.m. Burial was in the Okotoks cemetery with Gooder Bros. in charge of arrangements.

Pillow Radios Now In Use at Hospital

Recent installation of a unique radio service in the Didsbury hospital, especially adaptable to sick room conditions, has simplified the problem of giving something different from flowers, candy, etc., to your hospital friends. Well-wishers not quite certain whether their friends operation will permit consumption of sweets, or whether hay fever will be the unfortunate result of expensive long-stemmed roses, may, for 50c a day, rent a private portable radio, guaranteed to disturb the nearest fellow patient.

The set is similar to an ordinary portable except for a small metal enclosed loudspeaker attached to a long cord from the radio. The loudspeaker may be placed under the pillow, where it is heard by the patient, or it may be turned up sufficiently to entertain the entire ward. Two straps are provided to attach the radio to the bed.

Nurses seem to favor the installation as requests to cut down volume of blaring radios are no longer met by indignant grumbles. Handling installation and maintenance in the local hospital is Mr. W. Goodwin of Calgary, who makes his rounds each month and in case of a sudden call for more radios, he will supply a set in 24 hours. He points out that neither nurses, hospital, nor patients are responsible in case of damage to the sets.

Siren Sounds Friday For Rubbish Fire

The windstorm which came up about eight o'clock Friday night was responsible for fanning embers in the incinerator at the rear of the Builders' Hardware store, blowing sparks to some boxes and paper nearby and starting a small fire. The siren was sounded and with the aid of the hose line from Howard Halliday's store the small blaze was soon extinguished without any damage being done.

The fire hazard will be greater as cool weather sets in and every precaution should be taken when burning rubbish and papers. When the new hydrazine system of fire protection has been completed the danger of a serious fire can be practically eliminated but at the present time our fire brigade hasn't the water to fight a large fire, and everyone should be on their guard when burning.

Town Council Favors Hiring Full-time Sanitary Inspector

At the regular meeting of the Council of the Town of Didsbury, held Wednesday evening, September 7, a communication from the local Health Unit, expressed the desire to have a full-time sanitary inspector located in Didsbury. Under new regulations the Provincial Health Department will bear 60 per cent of the cost of operation and the local municipalities 40 per cent, and since the employing of a full-time health inspector would not materially increase the present cost of local operation the Town Council agreed to provide a full-time inspector.

The pension plan discussed recently by Council was given approval and provides for a pension to all town employees on reaching the age of 65 years. The pension is based on earnings and employee can either take a cash surrender value or a monthly pension.

Several building permits were approved.

A delegation at the meeting requested a sidewalk in the new addition in the north west part of town and Council agreed to provide a temporary culter sidewalk.

W.C.T.U. Meets at E. Archer Home

About twenty-five members and visitors gathered at a meeting of the Women's Christian Temperance Union on September 8th, which was held at the home of Mrs. E. Archer. The topic, Jail and Prison Reform, was taken by Mrs. L. Gamble. It was decided to collect good books for the jails.

Joyce Archer was presented with two honorable mention certificates from the National Department of Scientific Instruction for the schools.

Miss Zook will discuss the subject, Lord's Day Observance, at the next meeting which will be held on October 13th at the home of Mrs. Rapley. Visitors are welcome.

ELECTRIC EYE USED TO TELL COLOR OF CATS

After winning fame by opening and closing doors and sorting anything from apples to radio tubes, here's the story of the electric eye's latest achievement.

Bill Keesley—a General Electric research engineer—became very weary of shoeing away neighborhood cats, which followed Mickey, his own cat, into their house through a cellar window.

However, Bill soon put a stop to the nightly feline chorus practice in his basement by rigging up an electric eye device that sorts cats. A swinging trap door glides open at the approach of Mickey who is coal black. But let a cat with a trace of white, brown, yellow or gray try to follow and the trap swings shut. Another attachment gives the strange cat a mild shock, thus hastening his departure.

Keesley says the sorter works perfectly. He tries not to think though, of what might happen if Mickey became friends with another all-black cat.

WESTERDALE NOTES

Farmers of the district were reminded that winter is rapidly approaching when Saturday morning they awoke to find a blanket of falling, all of Loosana, was accompanied by a strong, chilly wind and freezing temperatures. Quite a contrast to the hot weather which was prevalent during the previous couple of days. Fortunately the snow was light and uncut crops were not flattened by the snow. However, the majority of the farmers had nearly completed cutting operations.

Mr. and Mrs. C. Farrant and son Teddy, Mr. Fred Needham and two Sunday visitors at the home of Mr. and Mrs. H. Jackson.

Mr. and Mrs. Albert Chemelli of Eagle Valley enjoyed Sunday dinner at the home of Mr. and Mrs. W. Wigley, as also did Mr. and Mrs. F.J. Jackson and Phyllis.

On Sunday evening twenty-one guests enjoyed a delicious buffet chicken supper at the home of Mr. and Mrs. A. Buckley. The group comprised four of last year's bowling teams: Mr. and Mrs. Pete Miquel, Mr. and Mrs. A. Rapason, Mr. and Mrs. Habrick, and Mr. and Mrs. G. Nelson, all of Olds; Mr. and Mrs. W. Herbert, Mr. and Mrs. J. Cowie, Mr. and Mrs. S. Jackson, and Marion, Mr. and Mrs. S. Jackson, and Wayne, and Mr. and Mrs. P.J. Jackson and Phyllis.

Mr. and Mrs. W. Herbert attended a special show in Calgary on Friday evening.

Mr. and Mrs. Ady Snyder Honored At Evening Party

Neighbors and friends gathered at the home of Mr. and Mrs. Ady Snyder on Thursday evening, September 1st, in honor of Mr. and Mrs. Ady Snyder whose marriage took place recently.

The evening was spent in contests and games with Rev. Earl Archer and Claude Westfall acting as judges in a number of contests.

The happy couple was presented with a light and a beautiful bed throw. Presentation was made by Mr. Claude Westfall, after which a delicious lunch was served, bringing a very enjoyable evening to a close.

Farewell Held for Walther Leaguers

On Sunday evening, September 11, a farewell party was held in the basement of Redeemer Lutheran church for the members of the congregation who this year will be attending Concordia College at Edmonton. About 90 Walther Leaguers and their friends were in attendance.

The party began with radio home talent and quiz program, directed by Rev. Fox. Selections were given by Walter Artman, Erhard and Lilly Reinhardt, Karl Reese, Earl Scheuer, and Werner Reinhardt. A large number of guests were called upon to answer quiz questions, and since they could not answer them, they had to pay the consequences. Their antics had the assembly in peals of laughter.

The members of the Walther League attending Concordia this year are Lois Kruger, Earl Scheuer, Robert Folkmann, Lois Goetjen and Jean Dageforde. Rev. Fox, in behalf of the Walther League, presented gifts to Robert Folkmann, Lois Goetjen and Jean Dageforde as these three will be attending for the first time. Earl Scheuer and Lois Kruger will this year complete their Grade XII at Concordia.

A gift from the Walther League was also presented to Otto Bartz who has accepted the position of caretaker at Concordia College. Mr. Bartz plans to assume his new duties in the latter part of September.

Following the presentation a number of games were played by the group and the evening closed with lunch being served. The singing of "God be with you till we meet again" brought an enjoyable evening to a close.

REDEEMER LADIES' AID

The monthly meeting of the Ladies' Aid of Redeemer Lutheran Church was held on Thursday, September 8. The discussion was based on Sarah, a woman of faith and courage. This discussion was lead by Rev. Fox.

Mrs. L. Hildebrandt and Mrs. R. Goetjen were elected as sick committee for the month. The forthcoming sale of the Aid was briefly discussed.

The meeting closed with lunch.

Bovine T.B. Free Area May be Formed in M.D. 49

(By Hugh McPhail)

Canada can be proud of its record for producing healthy livestock and great credit should be given to our Health of Animals Branches of the Department of Agriculture. Some of the very serious diseases, such as Foot and Mouth Disease have been kept out entirely. At one time Glanders in horses was a very serious menace but through energetic measures, it was stamped out. (I well recall five of our horses being shot by the late Dr. McGilvray, who for many years was principal of the Ontario Veterinary College.)

Tuberculosis is a disease that is not only a threat to our cattle industry but is also a menace to human health as people can get the disease from drinking milk from cows that have tuberculosis. This is a disease that can be eradicated from our herds completely and we are now going to have the opportunity to form a tuberculosis free area in this municipality if two thirds of the cattle raisers indicate they desire it.

During the past ten years it was not possible to form these areas as there was not enough Veterinarians to do the work of supervising and testing. The war was largely responsible for this situation. But now more qualified Veterinarians are available and our Department of Agriculture is anxious to have more tuberculosis free areas formed, especially in municipalities that supply large quantities for milk consumption as fluid milk.

At present the following municipal districts are restricted areas. Numbers 47, 51, 63, 73, 82, 83. Number 75 is only half tested and number 48 is completely signed up and testing will start this fall.

Our M.D. is number 49 and if two thirds of the cattle owners sign the petition which will be circulated, testing should start here within a year.

Details of the policy will appear in this paper during the next few weeks. The Agricultural Service Board favours establishment of a tuberculosis free area and I believe the council will also support it. It is hoped that within a few years all Alberta will be included in the tuberculosis free areas. There are many advantages; very few, if any disadvantages.

Bowman-Dimmock Nuptials Held at Knox United Church

A quiet wedding was solemnized recently in Knox United Church, Didsbury, when Barbara Maude, younger daughter of Mr. and Mrs. James Dimmock of Sea Mills, Bristol, England, became the bride of Lloyd Ross, only son of Mr. and Mrs. Harvey Bowman of Didsbury.

Rev. W. H. Moss of Olds read the marriage vows before a flower-decked altar.

The bride, who was given in marriage by Mr. Bruce Parker, wore a bridal gown of white sheer with long veil and orange blossoms. She carried a colorful shield of Gladioli and roses.

Attending the wedding was Miss Pauline Bowman, as bridesmaid, who wore a floral model on egg-shell background, with chapel veil and pansies, and carrying a colonial array of purple asters. Miss Mary Macalister was flower girl, in pale pink, with corn flowers in her hair, and she, too, carried a nosegay in matching shades of sweet peas and roses.

The bridegroom was supported by Mr. Patrick Stirling of Calgary.

Mounts Outwit Local Riders in Donkey Softball

The first donkey softball ever to be seen in Didsbury was played in the Didsbury Memorial Arena on Tuesday evening, September 6, and the building was almost packed with interested spectators from all over the country.

Some of the donkeys were more than a match for the able-bodied riders selected from our farm and ranching areas, and the spills provided thrills for the spectators.

Musical barrels was the first item on the program, and eight local young men riding or trying to ride donkeys competed. Irwin Klein finally was declared the winner.

The second item on the program was a polo match with four men on each side. It is doubtful which side won because nearly all the riders, switching mounts from time to time, had all they could do to stay on the donkeys, let alone concentrate on the ball.

The main event of the evening was the donkey softball, and the fielding team were all mounted on riders, switching mounts from time to time, had all they could do to stay on the donkeys, let alone concentrate on the ball.

To wind up the evening a donkey milking contest was held between the captains of the softball teams. George Wilkins and Raymond Shantz, with Raymond being declared the winner.

The event was sponsored by the Didsbury Lions Club and net proceeds went to the Memorial Arena.

Temperature Drops With First Snow

The weather took a decided change last Friday night when temperatures dropped from 50 degrees above in the afternoon to the freezing mark in the evening, and with winds from the north west a flurry of snow reminded us that winter is approaching.

The snow which covered the ground Saturday morning did not last, but skies remained cloudy until Sunday afternoon with freezing temperatures and Sunday night 11 degrees of frost was registered.

The severe frost seems to have cleared the weather and farmers are again busy harvesting their crops. Cutting in the district is estimated to be about 90 per cent completed and the combines and threshing machines have been busy cleaning up the light crop which is being handled this year with very little outside help.

LAC Boyden Moon is spending a furlough in Didsbury with his father, W. Moon Sr., and other relatives.

Bowman-Dimmock Nuptials Held at Knox United Church

During the signing of the register, Betty Bowman MacLaren of Blairmore sang "O Perfect Love."

Miss Joan Cogswell played the wedding music.

The wedding reception was held at the bridegroom's home, where Rev. W.H. Moss proposed the toast to the bride. Mr. B. Parker proposed a toast to the bride's family.

For travelling the bride wore a two-piece ensemble in donkey brown shade with white accessories and a corsage of sweethearts.

The honeymoon was spent in a motor trip through the Rockies and on their return Mr. and Mrs. Bowman will reside at Calmar, Alberta.

Egg-Cultured Vaccine to Protect Cattle

Eradication of rinderpest, the cattle disease which kills some 2,000,000 farm animals every year is now a practical possibility, the Food and Agriculture Organization of the United Nations (FAO), reports. During the war American and Canadian scientists discovered that by growing the virus inside hen's eggs, speedy mass production of rinderpest vaccine is possible. Here, a FAO technician is seen harvesting egg membranes rich in rinderpest virus.

The warden of a large prison was escorting a party of five M.P.s through the institution. They passed a room where two women were busy sewing.

As they went out of this room, one of the M.P.s said: "My what

hard-looking women! What are they in for?"

With ice in his voice the warden replied: "They are here because they have no other home. That is our private living room and they are my wife and mother-in-law."

Instruction at Westcott on Friday, September 16, Saturday school on Saturday, September 17.
Walther League meeting Tuesday, September 20.

WESTCOTT ITEMS

On Friday evening last Fay Pre-cott and Marjorie Goetjen played hosts to a party of young folks in honor of Miss Jean Dageforde who leaves shortly to attend school in Edmonton. The party was to be a weiner roast at the Dog Pound Creek but the weather man intervened and it was held at the Goetjen home instead. Jean was presented with a lovely cup and saucer by the gathering and the party broke up with all wishing her the best in the future.
Mr. and Mrs. H. Goetjen of Clarksville, Minn., visited recently with Mr. and Mrs. John Jacobsen. This was quite a reunion as these folks were very good friends many years ago.

Mr. and Mrs. Otto Folkman accompanied Mr. Norman Tuggle to the Dageforde-Hagen wedding at Consort, Alberta, last Wednesday. Congratulations to you, Ted and Micky, from all your friends at Westcott.

Mr. and Mrs. H. Goetjen and De-loyce were accompanied to Calgary on Monday by Joyce Buhr and Mrs. John Jacobsen.

WALTHER LEAGUE MEETING

The Walther League of Redeemer Lutheran Church assembled on Tuesday, September 6, in the basement of the church for their regular meeting. Pastor Fox lead the discussion on the Sacrament of Holy Baptism.

During the business meeting it was decided that the Leaguers scrub the basement floor prior to painting it. The League also discussed the possibility of presenting an evening's entertainment during the month of December. This is to be in the form of a number of short, one or two-act plays. Following the meeting a short filmstrip on the work of the Walther League was shown.

The meeting closed with a luncheon.

Horse's hooves were shod with covering in shape of socks or sandals before metal horse shoes were used.

IN MEMORIAM

In loving memory of a dear wife and mother, Mrs. Enoch (Margaret) Hughes, who passed away September 16, 1945.
"Beyond the gate our loved one,
Finds happiness and rest,
And there is comfort in the thought,
That a loving God knows best."
Always remembered and sadly missed by loving husband and family. p

CARD OF THANKS

We wish to take this means of expressing our sincere thanks to our relatives, neighbors and friends for prayers, words of comfort and all kind deeds of sympathy shown us in the tragic and sudden loss of our beloved son and brother, Duane. Also for the profuse and beautiful flowers, for the donations to various organizations and for money sent to us in Duane's memory. To Rev. and Mrs. Hoskins and Abe Neufeld for the beautiful songs. To all who brought food and carried on in our home with the work.

When death takes one of our loved ones we truly learn to appreciate our friends. May God bless and reward you all.

Cremona Holds
First Rodeo

On August 26 the first stampee to be held at Cremona brought 1,500 spectators to enjoy the natural beauty of this scenic spot by the Red Deer river and see the cowboys battle for supremacy.

The stampee, a community effort, proved successful and another one is planned next year. Ken Bergeson is president of the Stampee association and secretary is Cecil Papke. Arena manager was Lorne Bergeson; judges, Bill Loblaw and Chappy Rodgers; timers, Howard Steam, Hank Bolander; kick-up, Art Johnson.

Winners were: Calf roping—1, Doug Havens; 2, Gordon Hunter; 3, Joe Koquettes.
Steer riding: 1, Barney Williams; 2, Joe Bargett; 3, Al Soldier.
Steer decorating: 1, Mac Leach; time, 6 and two-fifths; 2, Paul Potette; 3, Albert Boarspaw.

Saddle bronc: 1, Dan Chappin; 2, Ben Surdholm, Big Prairie; 3, Joe Fos, Morley.
Barrelback riding: 1, Cecil Papke, Cremona; 2, Don Chappin, Carline; 3, Doug Rodgers, Dog Pound.
Boys' steer riding: 1, Pierce Poucette; 2, Jimmy Gray; 3, Ronnie Foat; 4, Mike Boyce.

Wild horse race: 1, Art Coates; 2, Tod McLean; 3, Jim Burton.

A MESSAGE FROM THE
AGRICULTURAL SERVICE
BOARD SUPERVISOR
(W.K. Snyder, supervisor)

Now that harvest has been completed and threshing and combining is well under way we should like to make a few suggestions. The use of a tarpaulin to cover the loaded grain trucks will pay for itself in short order. It is common practice to fill the box and round it up with grain. On the way to the elevator several bushels of grain will blow away as well as the weed seeds that the grain contains, which means that loaded trucks are in some measure responsible for the spreading of weeds. Such spread of weed seeds would be avoided if the load were securely covered. It was recently brought to our attention of one instance where a truck load of seed grain was weighed at one point, covered with a tarpaulin, then driven 20 miles and weighed again. In transit 5 bushels of grain had been blown away through a small tear in the tarpaulin. Therefore we see that it does not take much imagination to visualize what happens to the grain when the load is not covered. **Regulations Covering Screenings** —As provided by the Noxious Weeds Act.

1. Every person who has screenings in his possession or under his control shall keep them in buildings, bins or containers so constructed that screenings are securely confined therein.
2. No screenings shall be moved except in tight containers which will prevent scattering of seeds in transit.
3. No screenings shall be moved as feed for live stock unless fed within an inclosed feed lot.
4. The disposition of screenings shall be reported on Sale or Removal of Screenings Record forms as prescribed by the Field Crops Branch.

MORE PEOPLE WORKING
ON THE LAND

Livestock in Britain is on the increase. This is revealed in figures published recently by the Ministry of Agriculture which are taken from the census giving farming statistics. These show the portion in June of this year for crops and agricultural workers as well as for livestock. Compared with a year ago, there are now 886,000 more sheep and lambs, 340,000 more cattle and 488,000 more pigs. Poultry flocks have increased from 52 million to almost 61 million. The census also shows that more people are working on the land. The agricultural labour force expanded during the twelve months under review from about 740,000 to more than 750,000. Amount of land under cultivation is now some 10½ million acres. Of this about 6 million are devoted to wheat, barley and oats, another one million potatoes, 412,000 to sugar beets and 58,000 to linseed. There are now ten million acres of grassland and 3½ million of temporary pasture.

LOST LEMON MINE
MAY BE FOUND

The Lost Lemon gold mine of fact or fiction that has been presumed responsible for five violent deaths since 1879 may possibly be found by road construction gangs now driving through the foothills of the Rockies building the 70-mile road from Morley to Coleman.

According to J. D. Middlemass, secretary of the newly created East Rockies Conservation Board, builders of the road, it will pass through the territory lying between the Highwood and Old Man Rivers. It is somewhere in this area that the legendary lost Lemon Mine is believed located. The story of the Lemon mine is one of murder and mystery.

As told by prospectors and hunters the mine was first discovered in 1879 by Joe Lemon and a companion. During an argument Lemon shot his companion, then returned to Montana. Later he went back to stake the mine, but, unknown to him, two Indians who had watched the slaying, had removed all trace of the workings. Lemon died in Texas several years later.

Many men since that time have spent years in the search for the mine. Better known among the many is Lafayette French, who claimed to have found it, but he died in a cabin fire before he could reveal the mine's location.

King Bearpaw of Pekisko has spent most of his life in the hunt, riding hundreds of miles through the Livingstone range without success.

The road is being built to assist in fire fighting along the mountain slopes. At present about forty miles have been built and feeder roads, such as the Johnson Creek road west of Nanton, are being built to it.—The Nanton News.

Swiss guides often insist on silence when crossing dangerous spots because noise can loosen masses of ice and snow.

to have a choice

SUPPOSE you have what you feel is a good opportunity which calls for bank credit. If one bank cannot see it your way, or if you think you can get a better deal elsewhere, you're free to "shop around".

Banks compete to serve the most diversified needs, no matter how specialized any of them may be... personal, business, or farm loans, money transfers, collections — to name just a few.

More than 95 out of 100 bank loan applications are decided "right in the field" — in the branches — by bank managers who take a personal interest in serving their customers' individual requirements.

WATERWORKS CONSTRUCTION CAUSES INCONVENIENCE TO FARMER CUSTOMERS

Construction of Didsbury's waterworks system is causing some inconveniences to visitors and country residents who must park their vehicles on our town streets, but it is the desire of the Town Council to keep the streets open as much as possible without hindering the work of the contractors. With this in mind the cross roads are being opened up as quickly as possible after the ditches have been dug and pipe laid, and while the fill in the centre of the streets must settle before the streets can be reggraded and gravelled, it is hoped that traffic can proceed with as little interruption as possible.

As construction proceeds the streets may be in much worse shape than at present, but visitors and country customers are asked to be as lenient as possible and park their vehicles as best they can, always having some consideration for their fellow drivers. After all, Didsbury is the centre of a great trading area and it is hoped that by modernizing the town more people will come here and take pride in the fact that Didsbury is their home town and trading town. To do this it is necessary to undergo some inconvenience while construction of public works is in progress, but when completed we will all forget these little inconveniences and take pride in our achievements.

Didsbury still welcomes country trade and visitors and our Town Constable, W. H. Dobbin, will do his best to overlook the little discrepancies in traffic laws for the time being, but he asks the co-operation of motorists during this emergent situation.

HIGHER RADIO LICENSE FEES UNNECESSARY

A brief has been prepared by the Board of Governors of the Canadian Broadcasting Corporation and is being presented to the Royal Commission on National Development in Arts, Letters and Sciences. This brief mainly deals with the present programs and future plans of the Corporation, all of which will cost a great deal more money, and the final recommendation of the Corporation is to raise the present license fee from \$2.50 to \$5.00 per year in order to carry out their expansion program.

Now we all know that costs have increased and no doubt the sum realized from radio licenses does not pay for the large outlay necessary to bring the many varied programs to Canadian listeners. On the other hand, the increased license fee will not bring the desired revenue. The reason is that right now it is doubtful if 50 per cent of the radios in Canada are licensed. If the fee were increased to \$5 the proportion would be still lower, and the collectors necessary to gather in the required license fee would absorb nearly all the increased revenue in commissions and expenses.

The Board of Governors say that they do not see their way clear to raise their advertising rates to cover the increased expenses. Probably they are not that far-sighted, but a newspaper must raise its advertising rates when expenses increase. It may also raise its subscription rate slightly, but a publisher knows that if he doubled his subscription rate he would probably lose half of his subscribers. This will be equally true with radio licenses, although the Government can levy a license and demand payment, or else.

No, any increase in the present radio license fee is not desirable nor welcomed by the people. The populace may stand for a slight increase to \$3 a year under the circumstances, but never \$5 a year.

UNITED KINGDOM EXPORTS

United Kingdom exports to North America in July showed an increase over the rest of the year. Shipments to the United States amounted to \$152 million or 15 per cent above the average for the second quarter of the year, while exports to Canada at approximately \$26.74 million were also above the second quarter. Britain's imports from Canada and the United States during the month were valued at \$89 and \$82 million respectively.

Tuberculosis Essay Contest Announced

Indian and white pupils in Alberta schools from grade seven to 12 will compete this autumn for prizes totalling over \$1,000 in an essay contest sponsored by the Alberta Tuberculosis Association. It was announced recently by C. Robert Dickey, general secretary of the association.

Subject of the essays will be "How we fight Public Health Enemy number one—tuberculosis." Judges will be Dr. W. H. Swift, deputy minister of education, Dr. A. H. Baker, director of the tuberculosis division, department of health, and E. C. Ansley, general secretary of the Alberta Teachers' Association.

Mr. Dickey said that classes, not individual pupils, would participate and prepare the essays. Prizes will be awarded to winning classes and schools, and will include radio sets, record players, combination radio and record-playing machines, sports equipment, encyclopedias and others.

Purpose of the contest is to spread more information about tuberculosis among the young people and their parents. Mr. Dickey said "Education and public knowledge are among our chief weapons in the fight against T.B. The more we know of tuberculosis, the less we will suffer from it." Expenses of the contest will be defrayed from Christmas Seal funds.

Teachers are invited to write for entry forms and educational material to the Alberta Tuberculosis Association, 346 - 7th Ave. W., Calgary.

EVANGELICAL CHURCH

Rev. A. J. Grams, Pastor

Sunday Services: 10:30 a.m., Worship service. 11:30 a.m., Sunday school.

Alternate Sundays at Bethel and Lutland: 2:00 p.m., Sunday school followed by worship service.

The pastor and congregation extend a cordial invitation to every one to worship with us. "Come and we will do thee good."

WEDDINGS

MAYERCHAK—DEVOLIN

A lovely wedding was solemnized at St. Stephen's Church, Olds, on July 6, when Muriel Jean, daughter of Mr. and Mrs. William Devolin of Didsbury, became the bride of Mr. Joe Mayerchak, son of Mrs. S. Klejko, also of Didsbury. Father Wheeler performed the marriage ceremony.

For the occasion the church was decorated with peonies, fern and pink carnations.

The bride, given in marriage by her father, was gown in ivory bridal satin with sweetheart neckline, low waist and tiny buttons in the back to the waist. Her coronet was a halo of silver beads, from which fell a three-quarter length veil. She carried a shower bouquet of red roses and her only ornament was a strand of pearls with matching earrings.

Miss Julia Kapalek, cousin of the groom, was bridesmaid and wore blue net over taffeta, net halo and veil and blue lace mittens. She carried a bouquet of pink carnations.

Miss Carole Devolin, sister of the bride, and Miss Marilyn McGovern, niece of the groom, were flower girls attired in gowns of green taffeta and yellow taffeta respectively. They both carried nosegays of fresh spring flowers.

The groom was supported by his brother, John. Mr. Emile Dupont Jr., brother-in-law of the bride, ushered the guests, and Miss Emile Dupont played the wedding music.

For her daughter's wedding Mrs. Devolin wore a green silk dress trimmed with brown and a brown hat. Her corsage was of Talsman roses. The groom's mother chose a brown dress with brown hat and her corsage was also of Talsman roses.

The reception followed immediately in the Lions Hall, Didsbury. The hall was decorated with pink and white streamers, with bells suspended above the bride's table, and bouquets of peonies. Mrs. Don Fleury proposed the toast to the bride, to which the groom responded. Several flash photos were taken during the reception.

Following the reception Mr. and Mrs. Mayerchak left on a honeymoon trip to Banff and points in the United States. For travelling the bride wore a blue gingham suit and white accessories with a corsage of red roses. The happy couple will reside in Didsbury.

UNITED MISSIONARY CHURCH

Rev. E. G. Archer, pastor

Sunday school: 1:30 p.m. Worship Service 2:30 p.m.

Sunday evening service 7:45 p.m. Young peoples' service every alternate Sunday at 7:45 p.m. Wednesday evening prayer meeting at 8:00 p.m.

Davenport school: Sunday school and service each Sunday, 10:45 a.m.

A friendly invitation to everyone to come and worship with us.

-: DISTRICT NEWS :-

NOTES FROM EAST

Mr. and Mrs. Lloyd Clipperley and the former's father were Sunday visitors at the Thompson home.

Mr. and Mrs. Nelson McLean were Calgary visitors on Monday. Mr. James Leach of Cranbrook visited with Mr. and Mrs. Alfie Thompson and while in the neighborhood he also visited with Mr. and Mrs. Alvin Baptiste.

Mrs. Grace Blitner and her son and daughter, and Mr. Stanley Baptiste visited Sunday with Mr. and Mrs. James McCulloch and Mr. and Mrs. Alvin Baptiste. Mr. and Mrs. Schumaker visited with their daughter, Mrs. Clendenan, in Calgary last Friday and also visited with Mrs. Schumaker's mother.

Mr. and Mrs. Dennis Jenkins and small son holidayed for a few days at Edmonton last week.

The following visited Sunday evening with Mr. and Mrs. Nelson McLean and Ellwood Topley, and spent a delightful evening: Mr. and Mrs. Alfie Thompson, Mr. George Long, Mr. and Mrs. Simpson, Mr. and Mrs. Schumaker, Mr. and Mrs. Alvin Baptiste, Mrs. Grace Blitner and two children, and Mr. Stanley Baptiste. Mrs. Nelson McLean served a delightful lunch.

Mrs. Corrie Stump of the Poplar Creek district met with an accident recently when she had four ribs broken. Best wishes are extended to her for a speedy recovery.

Mr. and Mrs. Schumaker and two girls took in the Lutheran Services which were held at Poplar Creek school Sunday afternoon.

LARGE MODERN ELEVATOR

One of the largest and most modern elevators in a country point in the western provinces was officially opened recently at Foam Lake by the Saskatchewan Pool Elevators. The new structure, towering 112 feet above the ground, is designed to house 100,000 bushels of grain under a single roof. It has no annexes or supplementary storage. Designed by M.J. Spratt who is the chief engineer of the Pool, the new elevator contains all the most up to date equipment necessary to handle large quantities of grain quickly and efficiently. Built in the record time of 38 days, the structure required a total of 375,000 board feet of lumber, 1,000 bags of cement and more than 5½ tons of nails. It has a base 59 feet by 40 feet, more than twice as large in area than the averaged sized elevator.

IT'S STILL TRUE

It's unwise to pay too much, but it's worse to pay too little. When you pay too much, you lose a little money—that is all. When you pay too little, you sometimes lose everything, because the thing you bought was incapable of doing the thing it was bought to do. The common law of business balance prohibits paying a little and getting a lot—it can't be done. If you deal with the highest bidder, it is well to add something for the risk you run. And if you do that, you will have enough to pay for something better.—John Ruskin. 1819-1900.

Love is like an onion. You taste it with delight. And when it's gone you wonder whatever made you bite.

MOUNTAIN VIEW

Don't forget the M.V.W.I. meeting at the home of Mrs. Tom Pratt this Thursday. The lunch is pot luck and members are urged to attend if at all possible.

Thursday evening Mr. and Mrs. W.P. Shultz held a party in honor of their newly-married niece and her husband, Mr. and Mrs. Paul Keefe, from the States. Many of the young married folks from the district and young people were present for an evening of dancing and one game which was won by Mrs. Barney Elliott and Lawrence Hunter. The evening came to a close with a delicious lunch served by the hostess with an extra treat of fresh corn on the cob.

Mr. and Mrs. Paul Keefe of Pennsylvania and the Shultz family enjoyed a day fishing at Pine Lake last Friday. They were successful in catching 15 perch and two pike, the latter being 22 and 23 inches long. Saturday Mr. and Mrs. Keefe left on their return trip to the States. Mr. and Mrs. W. Shultz and Mr. and Mrs. H. Shultz accompanied them as far as Calgary. Mr. and Mrs. Barney Elliott and Mr. and Mrs. John Kohut were visitors in Calgary on Sunday.

Mr. and Mrs. Ray Bellamy of Calgary arrived Saturday to visit with Mr. and Mrs. Ed McNeil for a few days.

BERGEN NOTES

The Bergen Home and School Association met on Wednesday evening at the school and a thorough discussion of the condition of the school took place. The membership of the Association is now large enough to affiliate with the Provincial Association, and several new members joined. Mr. Dyck, the membership convener, and Mr. Clarke, the program convener, both gave short reports, and lunch was served, bringing the meeting to a close.

Messrs. Cook and Carter have moved here from Castor with their families and have taken over the Bergen store which they purchased from Mr. J.J. Davidson. We wish to welcome them to the community. The telephone was connected on Friday and Mrs. J.J. Davidson had the honor of making the first call. She phoned long distance to her daughter, Mrs. Avery, at Strathmore and the call came through in a few minutes.

Mr. and Mrs. Wesley Haug moved to Castor last weekend. Mr. and Mrs. Martin Haug and Mr. and Mrs. George Kitteridge and Kenny returned with them Sunday evening and visited other relatives here on Monday.

Wesley Haug has traded in his car for a new Ford light delivery. Mr. and Mrs. Meckelborg of Calgary visited here at the home of their son Leonard.

CREMONA NOTES

Mrs. C. Waterstreet was a recent hostess to a number of guests at a Wear-ever brush tea which was held in Waterstreet's Clothing Store. Mrs. E. Martin of Calgary was the demonstrator and during the afternoon two contests were held with Mrs. E. Reid winning both the events. The door prize was won by Mrs. T. Thompson. After the showing of the brushes a dainty lunch was served by the hostess.

Three more Wear-ever brush teas will be held in the near future at the homes of Mrs. Baker, Mrs. G. Brown and Mrs. T. Thompson.

Mr. and Mrs. Wm. Kinghorn and family of Edmonton were weekend visitors at the home of Mr. and Mrs. G. Camps.

Mrs. S. Schultz has returned from Calgary where she spent several days visiting with her sister, Mrs. Campbell.

Miss Shirley Frizzell, who is taking a nurse's aid course in Calgary, is spending a month's vacation at her home.

Miss Loretta Coleman of Big Prairie is staying at the home of Mr. and Mrs. T. Thompson and attending the Cremona school.

Mr. Bernard Parsons has returned after spending a short time at Kelowna, B.C.

Mr. Erle Coombs visited at Sylvan Lake last week.

Mr. and Mrs. Arthur Morgan (nee Lillian Reid) of Toronto, Ontario, left last week for their home in the East after visiting for two weeks with friends and relatives in the Cremona district.

Mr. and Mrs. P. Wardrop of Didsbury were Cremona visitors on Thursday, September 8. While in town Mrs. Wardrop attended the Wear-ever brush tea.

Don't forget the dance in the Cremona hall on Friday, September 16, with Calgary music.

To go with you wherever you go! This Kaplan suit in wonderful worsted Sharkskin adds a touch of surprise in pocket detail to its flattering simplicity.

The water main from the butte through to the Dr. Paul corner was completed Tuesday and will continue on through to the Drug Store corner. Residents wishing to connect up with the water and sewer are asked to register immediately at the Town office. A notice to this effect appears elsewhere in this issue.

FREE FREIGHT ON GRAIN PROPOSED FOR DRY AREAS

Extension of free freight on shipments of seed and feed into the drought areas of Saskatchewan and Alberta was proposed in a communication to the Dominion Minister of Agriculture by the North-West Line Elevators Association, released last week. Since 1941 the Dominion Government has been paying freight from the head of the Great Lakes on grains shipped to Eastern feeders and freight from Alberta on grains shipped to British Columbia feeders. The cost to the Dominion Government has been \$125,000,000.

In part the letter to Mr. Gardiner reads: "We strongly urge that free freight policy be extended to seed and feed shipped into the drought areas of the Prairie Provinces. We consider that the farmers of Western Canada are deserving of the same subsidies that are extended to feeders in other parts of Canada. It would permit the drought area farmers to retail their essential livestock, and to engage in feeding livestock and poultry for marketing, and to carry on dairy operations, at least, in even competition, as to costs, with farmers and feeders in other parts of Canada who are now favored with the freight subsidy."

"In view of the fact that this free freight subsidy was extended to Newfoundland without reference to Parliament, we take it that the Government has equal power to extend this needed assistance to farmers in the drought areas of Saskatchewan and Alberta."

SMALL SWEDISH VESSELS BRING IMMIGRANTS TO CANADA

The Acting Minister of Mines and Resources has announced that the Government is concerned at the number of small vessels coming to Canada from Sweden with immigrants who cannot comply with the immigration regulations.

Commencing in 1948 several groups of displaced persons have pooled their funds and bought small vessels in Sweden in which they have come to Canada without obtaining visas. To avoid imposing hardship on these people by returning them to Europe in a penniless condition, admission has been authorized in several instances on humanitarian grounds. This has apparently encouraged other groups to come to Canada despite the fact that warnings have been issued overseas, both through the press and by other means, that inadmissible immigrants will be returned to Europe.

In recent months owners of small ships have begun to bring immigrants to Canada. Some have chartered their ships to prospective immigrants for the purpose. Others have sold individual passages. All such owners, together with their agents and masters of vessels, are subject to prosecution in any cases of violation of the provisions of the Immigration Act. Inadmissible immigrants brought to Canada will be refused admission and will be returned on the ships by which they arrive, in accordance with the provisions of the Immigration Act.

The Acting Minister emphasized that alien immigrants from overseas are required to obtain Canadian visas before embarking for Canada. The purpose of this requirement is to determine the admissibility of applicants prior to sailing, thus preventing unnecessary expenditure of funds for transportation by inadmissible persons and the personal hardship that enforced return to their places of origin involves.

CANADA SHIPS PALOMINO HORSES TO GREAT BRITAIN

Eight Palomino horses, bred in Oakville, Ontario, were shipped last week to Britain where they will start a new life under the "Big Top" with an English circus. Palominos are of Arabian blood, and were originally brought to America by Cortez in 1519. Traditionally, Britain is a large exporter of Palominos.

A one-foot measure was at one time actually estimated by the length of a man's foot.

The so-called "fairy rings", a dark circle on lawns or meadows, is caused by a fungus growth in the soil.

Moulting is a severe strain on a bird because of the great amount of blood needed by the skin for the growth of new feathers.
